

2008 Western States Trail Ride - Finish Line Map

Horses will cross the finish line where they can be greeted by crew. The horse rider and one crew member will proceed from the finish line across the footbridge to the vet check. The horse has 30 minutes to meet finish line recovery criteria. After passing the vet check the horse and rider will proceed to McCann Stadium where they will make their finishing lap and cross the ceremonial finish line. Between 1 and 2 hours the horse must be presented to the vets at McCann Stadium for a health check at which time they will turn in their ride card.
